**Federal Matching Share Decreased - Effective
October 1, 1996**

Wisconsin Medicaid's federal matching share decreased from 59.67 percent to 59.00 percent for dates of *payment* on and after October 1, 1996. This proportionately decreases the Medicaid reimbursement a school-based services (SBS) provider receives and increases the amount the SBS provider must obtain from local matching funds.

Wisconsin Medicaid reimburses SBS providers 60 percent of the federal matching share. For example, let's say that the federal share is \$10. You would receive \$6, 60 percent of the federal share, regardless of your billed amount.

Refer to the next page for the SBS rates for claims paid on and after October 1, 1996.
